PROFESSIONAL SUMMARY

UX/UI Designer with 3+ years of experience designing user-centered, accessible interfaces from research through high-fidelity prototype. Skilled in wireframing, interaction design, and Figma prototyping, with a formal foundation in information design and visual communication. Works closely with front-end development to ensure design intent survives implementation — prototyping in Figma and collaborating directly on React and Tailwind CSS builds to keep design and code in sync throughout the product lifecycle.

SELECTED PROJECTS

HYPER-CASUAL ARCADE WEB HUB

2026

React · Tailwind CSS · Phaser · Mobile-First · Touch Interface Design

- Designed and developed a responsive 6-game arcade hub, leading the full UX process: user journey mapping, wireframing, visual design, and frontend implementation.
- Engineered touch-optimised interfaces for titles including Snake, 2048, and Block Slide, minimising friction for first-time users and achieving seamless onboarding across device types.
- Established a unified design system (typography, colour tokens, spacing scale) applied consistently across all game UIs and the navigation shell.

DIGITAL EVENT APPLICATION – "SAVE THE DATE"

2026

Next.js · Tailwind CSS · Firebase · Custom Component Library

- Led UX research, user flow design, and frontend development for a bespoke event web application, from initial brief to live deployment.
- Built interactive countdown components and RSVP flow, optimised for cross-device usability and load performance.
- Designed cohesive event branding and visual identity applied consistently across all digital touchpoints.

WORK EXPERIENCE

FREELANCE UX/UI DESIGNER & DEVELOPER

January 2023 – Present

D'SEIKOU · Self-Employed · Pretoria, Gauteng

- Conduct user research and usability testing to inform design decisions, identifying pain points and translating findings into actionable interface improvements.
- Build wireframes and high-fidelity Figma prototypes, iterating through user feedback before handing off to development.
- Map end-to-end user journeys and information architecture, simplifying flows to reduce friction and improve task completion rates.
- Establish reusable design systems — typography, colour tokens, component libraries — ensuring accessibility and consistency across every screen.

CONTENT CREATOR & DIGITAL DESIGNER

January 2022 – January 2023

TILT · Agency · Hybrid

- Researched audience personas and platform behaviour patterns to inform content and interface design decisions for client campaigns.
- Designed digital assets with a user-first approach, testing and refining based on engagement data for clients including Pizza Hut.

AMBASSADOR, HUAWEI ICT ACADEMY

June 2022 – December 2022

Huawei · Hybrid

- Increased Academy programme visibility by 30% through targeted stakeholder engagement and strategic communication.

FLOOR MARSHALL & MARKETING TEAM MEMBER

September 2024 – Present

Total Ninja Kolonnade · Part-Time · Pretoria, Gauteng

- Apply direct customer interaction insights to inform marketing and UX decisions, understanding real-world user needs and pain points.
